

1U Horizontal Cable Duct

RA2600

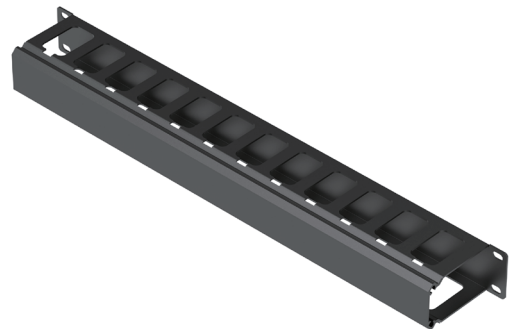

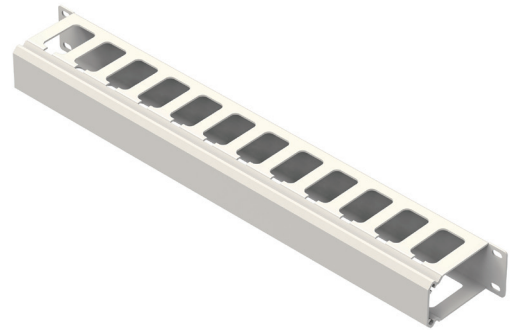

ATEN offers a variety of flexible rack accessories to meet the needs of IT professionals in managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be flexibly applied to suit various rack configuration requirements.

The ATEN 1U Horizontal Cable Duct features a 1U height design with 12 ring-shaped openings, allowing for efficient horizontal cable routing inside the rack and preventing cable tangling or knotting. This duct helps maintain a clean and organized environment for both server and network equipment.

It is compatible with ATEN or third-party 19-inch standard racks, server racks, and network racks, and can be installed at any position within the rack. The product is available in both white and black variants.

Features

- Effectively guides horizontal cable routing to prevent tangling and knotting
- 1U height design with 12 ring-shaped openings
- Compatible with ATEN or other brands of 19-inch standard, server, or network racks
- Available in white and black variants
