

2U PVC Horizontal Cable Duct

RA2700

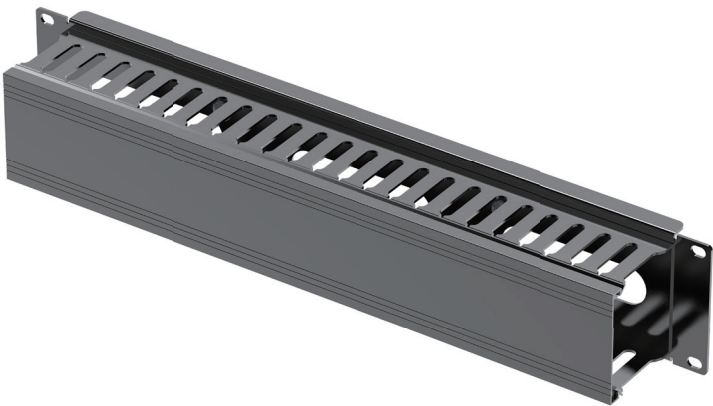

ATEN offers a variety of flexible rack accessories to meet the needs of IT personnel for managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be applied flexibly to meet different rack configuration needs.

The ATEN 2U PVC Horizontal Cable Duct complies with the latest EIA / ECA-310-E standards and features a 2U height design, making it especially suitable for environments with high cable density inside the rack. It effectively guides horizontal cable routing, helping to prevent tangling and knotting, while improving overall cable management efficiency.

A detachable front cover is included, which helps maintain a clean internal structure and consistent appearance, and allows for easy cable additions, rearrangements, or replacements. It is compatible with ATEN and other brands of 19-inch racks, server racks, and network racks.

Features

- Complies with the latest EIA / ECA-310-E standards
- 2U height design, ideal for high-density cable routing environments inside the rack
- Effectively guides horizontal cable routing to prevent tangling and knotting
- Detachable front cover for easy cable addition, organization, or replacement
- Compatible with ATEN and other brands of 19-inch racks, server racks, and network
