

Vertical Cable Management Hook (6 × 10 cm)

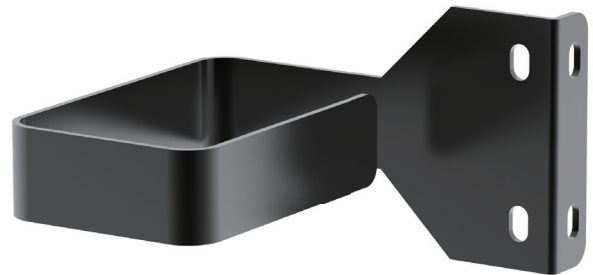

RA3100

ATEN offers a variety of flexible rack accessories to meet the needs of IT personnel for managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be flexibly applied to meet different rack configuration needs.

The ATEN Vertical Cable Management Hook installs inside the rack to effectively secure large bundles of cables for vertical routing, preventing tangling and knotting. It is suitable for ATEN and other brands of 19-inch racks, server racks, and network racks. It can be installed flexibly at any position inside the rack to help maintain organized cabling and improve overall manageability.

Features

- Can be installed inside the rack to effectively secure large bundles of cables for vertical routing, preventing tangling and knotting
- Suitable for ATEN and other brands of 19-inch racks, server racks, and network racks
