

Refresh Your Data Center And Upgrade To The Latest Technology

An Unprecedented Trade-In Offer For A Limited Time Only.

Trade-in ATEN LCD KVM consoles or from other manufacturers* and migrate to the latest generation of ultra short depth LCD consoles.

Trade-Up To The Latest Ultra Short Depth FHD Dual Rail Widescreen LCD Console (CL3800)

The CL3800 is ATEN's flagship SOHO & SMB solution product, featuring industry-leading ultra short depth and unique dual-rail design, it supports three input interfaces HDMI / DVI / VGA. The new ultra-short depth console provides a space-optimising solution for specialised control environments, including outside broadcast vans (OB vans), portable rackmount cases and computer room.

Top Reasons to Upgrade

- ▶ Industry Leading 18.5" 45cm Ultra Short Depth
A 1U 18.5" dual-rail LCD console.
- ▶ Ultimate Space Saving for Constant Monitoring
The keyboard and touchpad modules can slide back to "hide away" when not in use.
- ▶ Second Console for Flexible Deployment
A port for an external USB mouse and ports for the second KVM console.
- ▶ Supports All Popular Interfaces, HDMI, DVI, VGA
Users can connect to the console and computer via the three types of video sources.
- ▶ Superior WideScreen Monitoring Image
A16:9 video ratio with superior video quality of up to 1920 x 1980p @ 60Hz; DDC, DDC2, DDC2B
